BALTIC SEA DOCS FORUM

The Baltic Sea Docs Forum workshop took place in September 2018. For our project "From Sevnica to the White house", this was a very important turning point. In addition to useful responses to the script, teaser, presentation, we gained many letters of interest of broadcasters who attended the project pitch. The interest of TV houses was exceptional (mainly due to the theme of the documentary or the main character, who is the First Lady of the USA). The interest from abroad helped us get domestic funders to understand the relevance of the project. We finally got our first funding after two years of research and siege of the U.S. First Lady's town, Sevnica.

At the workshop in Riga, in addition to all the important connections and new insights, we also came across a distributor who might represent our film. The documentary is in the production phase. Due to the global pandemic situation, we were forced to postpone the production of the documentary, which has just started well. We aim to complete the film in autumn 2021.
